

2011 MIGRATION FLYOVER DEPARTURE VIEWING LOCATIONS

As a rule, departures happen within ~10 minutes of sunrise, so you will want to be in place at the viewing site by that time. Remember that our ability to fly on any given day is entirely weather dependent, and we rarely know more than a few minutes in advance of take-off whether or not we will be flying that day. OM crew will be on hand at Flyover Viewing Locations to answer your questions. They will be equipped with aviation radios so you can hear pilot transmissions and will have OM Gear for purchase.
