

2012 MIGRATION FLYOVER DEPARTURE VIEWING LOCATIONS

Departures usually happen within ~10 minutes of sunrise so you will want to be onsite by that time. Remember that our ability to fly is entirely weather dependent, and we rarely know until take-off time whether or not we will be able to fly on any given day. OM crew equipped with aviation radios so you can hear pilot transmissions will be at Flyover Viewing Locations. They can answer your questions and will have OM Gear for purchase.
